

adhesive tape **ES4**

Klebung als Montagehilfe zum Fixieren, Spleißen
The adhesive tape is thus suitable for use with food products, as well as resistant to high temperatures, UV, plasticisers and humidity.

product information

re.v January 2015

medium:	none
thickness:	0.10 mm
cover:	PP silicone tape white
adhesive:	basis of pure cross-linked acrylate

technical data

adhesion:		25 N / 25mm
shearing strength:	dynamic	40 N/cm ²
working temperature range:		-40 bis +120°C

resistance

plasticisier:	very good resistant
aging:	very good resistant

notes

Our advice is given to the best of our knowledge, but only as a non-binding reference and does not exempt our own examination of the products supplied by us for their suitability for the intended procedures and purposes. The specified technical data are guide values, i.e. experience values from longer production periods. The processing of our products is beyond our control and is therefore exclusively within your area of responsibility. Of course, we guarantee the perfect quality of our products according to our general sales and delivery conditions. Due to raw material and production, as well as by external influences (temperature, humidity, etc.), the stated values can fluctuate by up to $\pm 25\%$.
